Template for A578 CT/PT Pocket lock case

For 1-3/4" thick door, fold here and attach to the door at desired height of Strike location. Mark the positions of holes for Face and Edge bores. For other door thickness, mark the holes on door Face side and draw a light line between 2 locators H1/H2. Center the Edge Template on door Edge for marks, using the 'Horizontal Center Line L' and H1/H2 line drawn as reference for the Height. If mortise for Strike has already been made in metal frame, position template using strike mortise as reference.

Door Face

Edge

Edge center line -->

Horizontal Strike Line U

Cylinder or mounting screw location

T Turn Hole location

Mortise minimum 3-1/8"(79mm) Deep

15/16" (24mm)

15/16" W (24mm) x 1-1/8" Deep

Screw hole

Use Strike as template, mark outline of Strike and mortise 1/16" deep for flush mount
